

STUDENT SESSION II. – E-poster presentation (1)

27.03., 09:00-10:45

Hall II.50 (GRAFOS)

	NAME	TITLE
1	<i>Atlagić Borna</i>	When a Mass Isn't What It Seems: A Case of Mediastinal Paraganglioma
2	<i>Bačlija Marija</i>	Pancreatic Metastasis of Renal Adenocarcinoma More Than Two Decades After Nephrectomy- A Case Report
3	<i>Balog Luka</i>	Brachial artery embolism in a patient with metastatic TNBC and bone marrow infiltration
4	<i>Banovec Petra</i>	The Role of Comprehensive Genomic Profiling on Circulating Tumour DNA in the Management of Metastatic Breast Cancer
5	<i>Bosec Ivona</i>	Intracardiac Metastatic Melanoma Mimicking a Benign Left Ventricular Mass
6	<i>Čačija Dominik</i>	Liquid Biopsy and Artificial Intelligence: The Future of Non-Invasive Cancer Detection
7	<i>Čerepinko Matea</i>	Targeting Cardiac Myosin: Mavacamten in Symptomatic Obstructive Hypertrophic Cardiomyopathy
8	<i>Denkova Sara</i>	Obesity Paradox – Better Survival and Increased Risk of Complications in Obese Surgical Patients
9	<i>Dodig Anja</i>	Radiation-associated extraskeletal osteosarcoma
10	<i>Filipović-Peršin Marta</i>	The road from genotyping to treatment: Personalized mavacamten therapy in a slow metabolizer with hypertrophic obstructive cardiomyopathy
11	<i>Franković Andro</i>	When Immunotherapy Spreads: Systemic BCG-itis After Intravesical Treatment for Urothelial Carcinoma
12	<i>Grgorinić Klara</i>	Chronic Lymphocytic Leukemia with chromosome 17p deletion: Ibrutinib-induced ventricular fibrillation and device-associated endocarditis management
13	<i>Kokanović Marija Mateja</i>	Treatment challenges in a patient with acute myeloid leukemia – case report
14	<i>Kulušić Franka</i>	Ligand Expression Profiles in the Immune Microenvironment of Muscle-Invasive Bladder Cancer
15	<i>Mihaljević Katarina</i>	When the Past Returns: Late Pulmonary Metastasis of Ovarian Endometrioid Adenocarcinoma

16	<i>Paravić Mara</i>	State-of-the-Art Pharmacoeconomics: Balancing Cost and Efficacy in the Era of Advanced Therapy Medicinal Products
17	<i>Patrk Antonio</i>	Not Every New Lesion Is a Metastasis: Four Primary Malignancies in a Single Patient
18	<i>Perić Ozana</i>	The Role of Sleep in the Genetic Regulation of Tumor Angiogenesis and Immune Response to Tumor
19	<i>Roso Marko</i>	Posterior Reversible Encephalopathy Syndrome Following Bilateral Nephrectomy: A Life-Threatening Presentation
20	<i>Sajler Kristina</i>	Saving the Kidney, Avoiding the Surgery: Percutaneous Cryoablation for a Large Renal Tumor — A Case Report
21	<i>Stojković Fran</i>	Surgical management of hand pseudosyndactyly in dystrophicepidermolysis bullosa using an anterolateral thigh flap
22	<i>Šerman Ana</i>	Targeted BRAF and MEK Inhibitor Therapy in a Patient with Melanoma of Unknown Primary
23	<i>Štiberc Petra</i>	Personalizing fluoropyrimidine-based therapy through pre-emptive DPYD pharmacogenetic testing: A systematic review of cost-effectiveness and cost-utility analyses
24	<i>Tavra Lea</i>	Inflammatory Bowel Disease and Chronic Myeloid Leukemia: Coexistence Highlighting Immune Dysregulation and Targeted Therapy
25	<i>Zeko Gabrijel</i>	When Youth Offers No Protection: Early-Onset Colorectal Cancer in a Young Adult

STUDENT SESSION II. – E-poster presentation (2)

27.03., 09:00-10:45

Hall II.51 (GRAFOS)

	NAME	TITLE
1	<i>Augustić Vanesa</i>	VEXAS Syndrome: A Case Report
2	<i>Borić Magdalena</i>	Case Report: Prophylactic Immunoglobulin Therapy in Pregnancy After Parental Human Platelet Antigen Genotyping
3	<i>Bukvić Karlo</i>	Therapeutic challenges and immunomodulatory treatment - a case of refractory familial Mediterranean fever
4	<i>Cesar Sara</i>	Introducing Diazoxide Choline Extended-Release Tablet in children with Prader-Willi Syndrome: to expect a revival or to be restrained?
5	<i>Dragaš Emili</i>	Multiple Intestinal Atresias and Combined Immunodeficiency Syndrome: A Case of Two Siblings
6	<i>Frančin Natalija</i>	Severe Growth Discordance in a Bichorionic Twin Pregnancy Caused by a De Novo CACNA1D Variant: A Case Report
7	<i>Grubišić Neidhardt Niko</i>	A Preventable Threat: Invasive Pneumococcal Disease in a Vaccine-Eligible Patient
8	<i>Jakovljević Jure</i>	How Many Infections Can an Immunocompetent Person Have Simultaneously?
9	<i>Kazazić Ema</i>	Chronic Granulomatous Disease as a Differential Diagnosis to Inflammatory Bowel Disease – An Instructive Case Report
10	<i>Kirinčić Niko</i>	NIPT limitations, From double Y to double X – a case report
11	<i>Kosić Barbara</i>	Individualized Treatment of Severe Asthma: Successful Tezepelumab Therapy After Omalizumab Failure
12	<i>Kovačec Lea</i>	Early Clinical Recognition of Beckwith–Wiedemann Syndrome and Personalized Tumor Surveillance
13	<i>Lubina Antonija</i>	Role of Genomic Imprinting in Autism Spectrum Disorder Due to Maternal 15q11.2–q13.1 Duplication
14	<i>Marin Vanesa</i>	One Symptom, Two Antibodies: A Personalized Approach to Optic Neuritis
15	<i>Milostić Lara</i>	Severe psoriasis vulgaris in an adolescent: therapeutic transition from methotrexate to biologic therapy

16	<i>Mrkić Jelena</i>	Immunodeficiency as the Basis of Prolonged and Recurrent Sepsis in a Preterm Neonate
17	<i>Pirović Roko</i>	Leigh syndrome caused by a pathogenic MT-ND3 variant: a pediatric case report
18	<i>Puch Erin</i>	Precision Genomics as a Gateway to Safe Motherhood: Preimplantation Genetic Testing in Incontinentia Pigmenti
19	<i>Pulić Anton</i>	Immune Dysregulation in Common Variable Immunodeficiency Associated with TACI and RUNX1 Heterozygosity
20	<i>Radončić Lina</i>	When Energy Metabolism Fails the Retina: A New IDH3A Variant Linking Retinal Dystrophy and Mitochondrial Encephalopathy
21	<i>Selimović Tiyya</i>	ACTA1-Related Congenital Myopathy Presenting in the Neonatal Period: A Case Report
22	<i>Skejić Lucija</i>	European viper envenomation in children – a review with accentuating clinical experience from Croatia
23	<i>Srpak Korina</i>	The Importance of Early Diagnosis of Severe Combined Immunodeficiency
24	<i>Stanušić Ivan</i>	Manifestations of Common Variable Immunodeficiency (CVID) in a 67-year-old male: a case report
25	<i>Veršnik Iva</i>	Early-Onset Homozygous Familial Hypercholesterolemia Requiring Long-Term LDL Apheresis from Childhood

STUDENT SESSION II. – E-poster presentation (3)

27.03., 09:00-10:45

Hall II.52 (GRAFOS)

	NAME	TITLE
1	<i>Bodó Angelika</i>	Surprising behavioral consequences of the chemogenetic silencing of the ventral tegmental area in rats
2	<i>Božić Leona</i>	Giant Cell Myocarditis Masquerading as MINOCA: A Diagnostic Pitfall
3	<i>Bronzan Anamarija</i>	Overlap Syndrome of Psoriatic and Rheumatoid Arthritis Successfully Treated with Janus Kinase Inhibitors: A Case Report
4	<i>Bušljeta Magdalena</i>	Stress-induced acute and transient psychotic disorder: a case report
5	<i>Bužančić Krešimir</i>	Neglected Follow-Up in Drug-Induced Chronic Kidney Disease Leading to End-Stage Renal Disease and Dilated Cardiomyopathy: A Case Report
6	<i>Cvitak Lucija</i>	What (Not) to Expect When You Are Expecting: Peripartum Unmasking of a Genetic Cardiomyopathy
7	<i>Čengija Mirta</i>	Secondary Hemophagocytic Syndrome as a Presenting Feature of Systemic Lupus Erythematosus
8	<i>Čeović Fani</i>	From Parenteral Nutrition to Enteral Independence: Intestinal Rehabilitation After Multivisceral Transplantation
9	<i>Grozdanić Vlatka</i>	Cerebral venous sinus thrombosis and pulmonary embolism: coincidence or shared etiology?
10	<i>Hader Josip</i>	A Rare Case of Necrotizing Fasciitis of the Leg in a Diabetic Patient
11	<i>Kujavec Sonja</i>	Leaving home, mental adjustment and academic success in university students
12	<i>Martinić Matija</i>	An Autoinflammatory Crisis Masquerading as Septic Shock
13	<i>Mičić Jelena</i>	Kappa Free Light Chains – A Quantitative Alternative to Oligoclonal Bands in Multiple Sclerosis
14	<i>Mitrović Vanja</i>	First Report of Linezolid-Resistant Vancomycin-Resistant Enterococcus (LR-VRE) in a Tertiary Care Centre in Eastern Croatia
15	<i>Petrák Rebeka</i>	Pharmacological blockade of a neuroinflammatory pathway to relieve chronic stress-induced pain in a mouse model

16	<i>Polanščak Helena</i>	Polypharmacy After Myocardial Infarction: A Case of Unrecognized Adverse Drug Reactions and Drug–Drug Interactions
17	<i>Popović Stipe</i>	Digital Stress and the Epigenome: Exploring the Molecular Footprint of Social Media Exposure
18	<i>Rajić Hana</i>	The Clinical Path to Clarity: Step-by-Step Diagnosis of Rare GQ1b Encephalitis
19	<i>Sirotić Morena</i>	Hypersensitivity in Emergency Medicine: The Importance of a Personalized Diagnostic Approach
20	<i>Sokol Dorotea</i>	Chorea as the Primary Manifestation of Neuropsychiatric Systemic Lupus Erythematosus A Case Report
21	<i>Vrdoljak Antun</i>	Fibrillary glomerulonephritis successfully treated with rituximab
22	<i>Vujnović Elena</i>	Successful Treatment of Severe Psoriasis with Risankizumab in a Patient with Asbestosis: A Case Report
23	<i>Zima Klara</i>	What may be hidden behind hypertension in young man?
